

## UV IS THE BEST OPTION FOR CLEAN COILS!

- LOWERS PRESSURE DROP
- INCREASES AIRFLOW
- PROVIDES COLDER AIR
- RESTORES EFFICIENCY
- STOPS MICROBIAL GROWTH
- RIDS A/C OF SLIME AND ODOR
- ELIMINATES COIL CLEANING

### The Problem

Power Washes = High Expense and System Down-Time

Removed Coil Shows Power Washes Fail

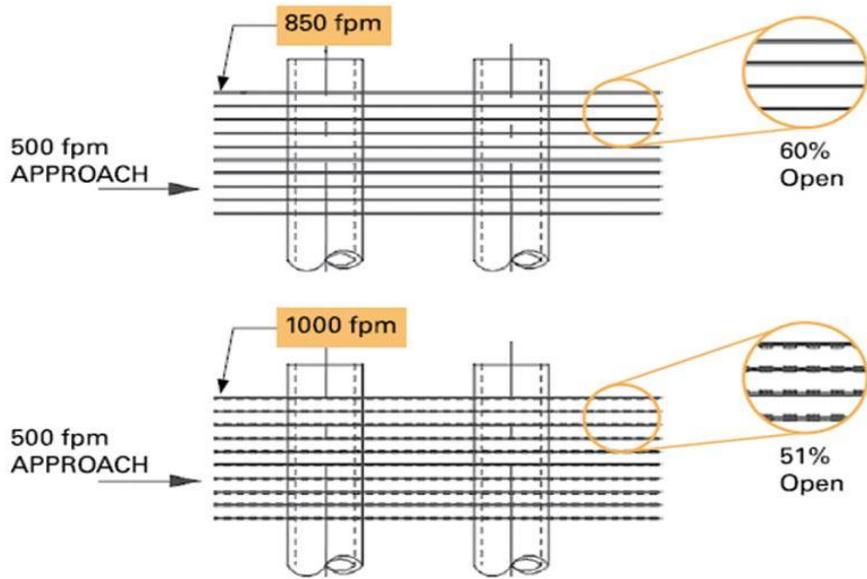

WEEK ONE

WEEK FIVE

Before and after pictures show fouled coils returned to as-built capacity.

*Just 6/1000" Reduces Open Area by 9%!*

Plan View Drawing of Coils

Increases coil velocity from 850 to 1000 fpm!  
Reduces efficiency and heat transfer!
